

Peer Observation Form

Regents Academy | Nacogdoches, Texas

Teacher: _____ Date: _____

Observer: _____ Class: _____

When you watch your peer teach today, please note:

I enjoyed:

I wondered:

Something I'd like to try:

2 + 2 Self-Evaluation Form

Regents Academy | School Year: _____

Teacher Name _____

This self-evaluation provides you, as a teacher, with an opportunity to reflect on the past school year so that you can build on your strengths and tackle areas that need improvement. This self-evaluation will help prepare for your development next year, underscoring areas that need work and attention. Please keep in mind that the main reason for evaluations is to challenge you as a teacher, not to document deficiencies. Examine such areas as professional responsibilities, planning, instruction, classroom management, relationships with parents and staff, resolving conflicts, room appearance, etc.

Please complete this evaluation with authenticity, honesty, and reflection. There is nothing wrong with acknowledging areas of strength; likewise, it is quite appropriate to note areas of weakness. Each assessment, whether it be a self-evaluation or an evaluation from an administrator, gives us the opportunity for conversation and growth.

2 Areas of Strength

What did I do well this year? What goals did I meet? In what areas did I improve?

1. _____

2. _____

2 Areas for Improvement

What can I do better? How would I critique myself? What are two concrete suggestions for improvement in professional duties, instruction, classroom environment, preparation, etc.? Avoid generalizations like "I need to be better prepared for class." If you critique yourself this way, amplify the statement with specific ways you should be better prepared, such as "I need to make my copies before class begins."
